

To: Private School Administration

From: Tulalip Tribes Government and Family Resources

Objective: Private School Funding

Date: July 21, 2020

We hope this letter finds you and your families in good health. Tulalip education would like to share our new policy; the Life Long Learning Policy. The intent of this policy is to see education as a continuum of education support for our tribal members over a life time.

Please review this process of obtaining payment to your student's private school institution;

- 1) Schedule a meeting with Vicki Hill via telephone, online video (zoom etc) or in person at the Youth Center to go over the new policy.
- 2) Fill out form and turn in required documents: invoice, schedule, grades
- 3) Tulalip Education will make one payment in the Fall of each school year; from that point forward all communication about tuition must be between the parent/guardian and the school.

Each student is allocated up to \$10,000 per school year maximum and there is no ability to combine with student activity fees, tutorial or matching funds.

We want all our families to feel supported and provide clear communication, please let us know if you have any questions. We look forward to assisting you!

Respectfully

Vicki Hill Family Resource Manager
